

Figure D  
Roof framing

Section B-B

CUT A PAIR OF RAFTERS AS SHOWN HERE. TACK A SHORT SCRAP OF 50x100 TO THE ANGLED TOP OF EACH RAFTER TO REPRESENT THE RIDGE. THEN PLACE THE TWO RAFTERS ON THE END WALL TO TEST THE FIT. IF THE RAFTERS DON'T FIT TIGHTLY, ADJUST THE FIT AND CUT A NEW PAIR. WHEN YOU ARE SATISFIED THAT THE RAFTERS FIT WELL, MARK ONE OF THEM WITH THE WORD "PATTERN" AND USE IT TO MARK THE REMAINING RAFTERS FOR CUTTING.
